

## SA Floodlight Tripod Stand

2m tripod stand for use with SA LUMIN EX LED Rechargeable Floodlight

SA Floodlight Tripod Stand – Heavy-Duty Adjustable Lighting Solution

The SA Floodlight Tripod Stand is a robust and versatile lighting support designed for professional and DIY use. Featuring a sturdy telescopic aluminum pole that extends up to 2 meters (6.6 ft) and a wide, anti-slip tripod base with reinforced legs, it delivers exceptional stability even on uneven surfaces.

Perfect for construction sites, workshops, outdoor events, photography, filming, emergencies, and garage work, this stand securely holds single or twin-head LED floodlights (not included). Quick-release height adjustment, foldable legs for easy transport, and a durable powder-coated finish make it weather-resistant and built to last.

Reliable, portable, and ready for any job – the SA Floodlight Tripod Stand keeps your workspace brightly and safely illuminated.
