

Site Bright-Ultra Rechargeable ATEX Work Light Stand - ALH2618

The Site Bright Ultra Rechargeable Work Light Stand is a powerful, portable LED lighting solution designed for job sites, garages, workshops, and outdoor tasks. Featuring ultra-bright illumination with high-lumen output, this cordless work light delivers reliable, wide-area lighting without the hassle of cords.

Its built-in rechargeable battery provides hours of runtime, while the sturdy adjustable stand (often telescopic or tripod-style) allows for hands-free operation at various heights and angles.

Durable, waterproof construction ensures it withstands tough conditions, making it ideal for construction, automotive repairs, camping, or emergencies.
